ABOUT	SKILLS
I am a recent Informatics Engineering graduate with strong problem-solving skills and experience working on a variety of real-world projects. I enjoy finding effective and innovative solutions, and I am always ready to learn new things. Through my experience across different projects, I have grown accustomed to facing challenges and adapting quickly. I am eager to further develop my skills and contribute dynamically.	- Project Management - Problem Solving - Fun-Driven - Tech Enthusiast - Creative Thinking

PROJECT		
SIKIPAS SKILL PASSPORT INFORMATION SYSTEM	Not only does it speed up report-card processing, it also works like LinkedIn — mapping students to the job market and connecting them with companies. With its advanced features and dynamic ecosystem, the system has been officially registered with Indonesia's Intellectual Property Office (HAKI) and has won competitions at the national level.	
JAMURIN MUSHROOM MONITORING AND AUTOMATIC WATERING DEVICE	Built on IoT technology with a NodeMCU as the central controller, supported by a relay to control the water pump and a DHT sensor to monitor environmental conditions. Connected to a website via API, the device enables real-time monitoring and highly precise automatic watering. The system also secured funding through the Innovillage program.	
BISA DESIGN ACADEMY ERP ACADEMY	Built with Laravel and Python technology, offering a range of quality courses and certifications. More than just a learning platform, the system integrates a video conferencing feature similar to Zoom, delivering an interactive learning experience. With more than 10,000 visits, the website continues to grow as a leading digital education hub.
